Sporting Goods Store Business Plan

1.0 Executive Summary

The Store is a retail company that sells mass marketed sporting goods and fitness apparel that is trendy, in demand, and competitively priced.

Three years ago The Store opened as one retail location in a traditional store format. This single sales channel generated all of the company's revenue, providing sales adequate for paying operating expenses, but generating only narrow margins that limited the company's growth.

The Store competes in a highly fragmented and competitive market. It has carefully combined a variety of promotional strategies into a unique marketing mix to gain as much market share as possible.

1.1 Objectives

The Store's over-riding objective is to be a competitive player in the sporting goods and fitness apparel markets. Current awareness of the company is limited to its local community.

- Increase potential customer base from thousands to millions by broadening exposure from local to national markets.
Increase sales revenue, margins and profitability.
Break-even by on new venture by the end of Year 1, increase profitability in Years 2 and 3, and continue increasing company net worth each year.

1.2 Mission

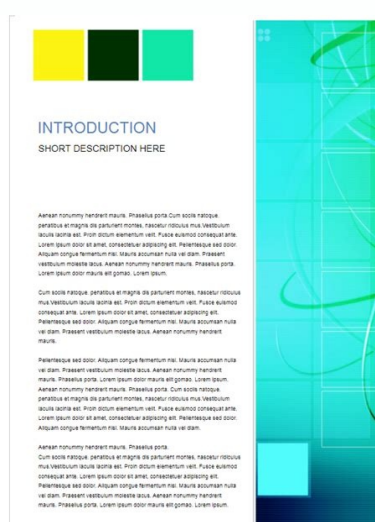

Since its beginning as a retail outlet three years ago, The Store's customer-oriented mission has always been simply stated as its Brand Promise:

- Offer sporting goods and fitness apparel at competitively low prices.
Provide excellent customer service through one-on-one knowledgeable salespeople.
Accept easy returns from customers who are dissatisfied with purchases.

These principles will continue to guide The Store's expansion into e-commerce.

What is the format of a business report. Business report format example pdf. Business case report format example. Business proposal in unbond report format example. Business report style format example. How to write a business analysis report example. How to write a business report format. Formal business report format example.

In this article, we explain what a formal business report is, how to write one and provide an example. What is a formal business report? A formal business is an official document that contains data, research, information and other necessary details to help decision-makers form plans and objectives to help the company. Label each note, map and other documents with a letter so that you can reference them clearly in the report. The report would include recommendations to resolve the problems. A periodic report This report helps an organization improve its products, services, processes or policies. This ambassador can express concerns and relay outcomes to their teams to increase engagement. It is important to present your results logically and succinctly while making sure that you have included enough information to prove that you have researched the matter thoroughly. One way of making the findings easier to read is by using headings, subheadings and numbered sections to organize everything. It should be a clear justification of why you chose to use certain methods. 8. Present your findings This section is where you should present the outcome of your research. This report is helpful for business owners to anticipate any issues involved in making an investment or purchase. Learning how to write a formal business report can help you develop as a professional. Check your company handbook or ask the person who wants the report to see if there's a specific format you should use. Using an established format will help your report look more professional. 3. Add a title You might get the title of the report with the brief or you may write it yourself. You could also create a formal business report to analyze a proposed merger. Compliance report Use this report when the organization wants to show accountability and create a compliance report. Despite operating in a region with substantial unemployment, the annual turnover has been 60 a 65% a cada ano.
